Companies

## Results:

**\$1,721** Workers' comp savings per employee per year

**\$1M+** Overall insurance savings

## Objective

- Reduce incidents and build a culture of safety
- Lower EMR to reduce insurance premiums
- Become an industry safety leader

## Solution

- Adopt Safety Mojo as an easy-to-use safety program software for both in-field workers and executive team
- Use Safety Mojo to push safety as a more integral part of the culture
- Get better accountability and tracking to ensure consistent behaviors across the organization

## Results

- 22% decrease in EMOD since implementing Safety Mojo
- \$1,721 savings in Workers' Comp premiums per employee per year
- Over \$1 million in overall insurance savings
- Better positioned to attract talent and win additional work

Safety Mojo is the best safety management software I've seen. It's simple and easy for our guys on the ground to use, and it shows our executive team exactly where we are."
